

SHOE COVER MAGIC

Shoe Cover Magic For The Medical Industry

Disposable Booties for Medical Offices

Keeping patients and medical staff healthy should always be the first priority of any healthcare business. At Shoe Cover Magic, we know how important it is to take precautions and minimize the spread of contaminants to keep everyone safe, no matter your industry. Medical offices are no exception, which is why we provide first-class disposable booties and hands-free dispensers, keeping you, your staff, and your patients safe.

Hands-Free Sanitation

All medical facilities are exposed to germs, contaminants, or even spills on the floors. Shoe covers protect everyone from exposure to these germs and contaminants, and our non-skid booties prevent any unfortunate accidents. Our easy and hands-free shoe cover dispensers and removers mean that patients and staff don't have to sit down to apply the booties or risk contact with contaminants when removing them.

Shoe Cover Magic stocks a variety of different shoe covers as well as different-sized dispensers, which you can choose depending on your office's needs.

If you're interested in purchasing a Shoe Cover Magic dispensing system and shoe covers for your medical office, get in touch by visiting our website or give us a call at **(606) 393-0949**, and our team will help you determine the best bootie for your practice.

Speedy. Safe. Sanitary. Every time.
