

Your Hands-Free Shoe Cover Solution

Features a handle
for added safety
& balance

Powerful, hands-free shoe cover dispensers.

Our simple but powerful dispensers allow workers to put on shoe covers quickly, easily, and safely. No longer will you find workers cutting corners and putting themselves at risk of falling by balancing precariously on one foot or leaning against a wall. The added safety handle keeps your employees on two feet, greatly reducing the risk of fall, and the hands-free aspect stops the spread of any potentially harmful bacteria that could be lurking on shoes.

Shoe booties that put safety first.

No more slips and trips. The most advanced and versatile shoe covers on the market, our booties are anti-skid and anti-static to serve industries across the board. Plus, we offer durable, waterproof booties to promote safety and functionality in any work environment.

Remove shoe covers without the hassle.

The remover is the final piece of the puzzle. By choosing a Shoe Cover Magic remover, you are choosing the magical ending to your perfect system. Our hands-free removers help protect against cross-contamination while giving you a speedy process to continue your day.

Speedy. Safe. Sanitary. Every time.
